

Live Circuit Tracing Kit

Trace
Energized
Circuits

Fox & Hound™ HotWire™

Applications

- Trace wires from 0 to 250VAC, including 12, 24, 48, 120, 220, and 240VAC
- Trace unpowered lines throughout the job site
- Follow wire through wall from outlet to breaker
- Trace wire through conduit from outlet to breaker
- Trace 'invisible dog fence' wires
- Trace low voltage wire
- Test for continuity of wiring
- Test for AC voltage

Features

FOX HOTWIRE

- Generates both Warble and Pulsed tracing tones with user selectable pitch
- Trace AC (50/60Hz) or DC wiring up to 250V
- Designed to tolerate 250V AC/DC CAT II
- LED and beeper 'voltage present' indicators
- Audible continuity test with 120/220 VAC line cross protection
- TrueTrace positively identifies wires (when usable)
- Transmitter pilot tone (selectable on or off)
- Transmitter level adjustment
- Battery powered or AC line powered
- Battery test LED
- Generates AF tracing tones for use with inductive probes (like the Hound 3)
- Magnetic back
- Rubber grips
- Includes 2' and 5' modular probes with attachments

HOUND HOTWIRE

- FET and IC front end
- Adjustable sensitivity
- Powerful 1.5" mylar loudspeaker
- LED signal strength indicator
- Noise filter
- White LED headlights
- Auto-muting earphone jack
- Easy battery replacement
