

RIDGID®

SeeSnake® rM200 Camera Reel Series with TruSense®

The new RIDGID® SeeSnake® rM200 Camera Reel Series now features TruSense® technology for superior image clarity and camera functionality. Already known for its built-in versatility and portability, the rM200 series, now also has enhanced transportation and storage features. The interchangeable D2 Series Drums (D2A & D2B) provide various combinations of cable stiffness and spring flexibility to tackle any inspection job.

- **Enhanced camera functionality** – TruSense technology with High Dynamic Range (HDR) sensor and TiltSense™ inclinometer give crisp, always upright images and feedback on camera angle in-pipe
- **Interchangeability** – Easily interchangeable D2 drums for on-the-job flexibility and compatible with all SeeSnake monitors
- **Pushability** – Drums feature different push cable lengths, diameters, stiffness and springs for customized jobs
- **Portability** – Multi-functional pull handle and smooth wheels for easy transport and positioning
- **Increased storage** – New taller stow bins with increased internal capacity to store
