2 XP SERIES BATTERY CHARGING STATION (XP-323)

3 XP SERIES POWER PACK (CDX2341-130)

4 XP SERIES FUSE KIT (XP-326)

5 XP SERIES BATTERY FIXING KIT (XP-325)

1

XP SERIES REPLACEMENT BATTERY (CDX2341-008)

Standard 1100mAh NiMH battery pack for XP series CorDEX Instruments. Incorporates reverse charging and over current protection via replaceable fuse.

Technical data: 3W (Max)

Safety Note – Only use CorDEX Instruments fuse part number CDX2341-120. Failure to do so will render the instrument certification invalid.

Weight: 135g **Dimensions:** 25x82x60mm

2

XP SERIES BATTERY CHARGING STATION (XP-323)

1-bay battery charger for the XP Series, NiMH battery pack. The charger can be desk or wall mounted and is supplied complete with all required fixings.

N.B. – Power pack is included, and comes with a choice of UK, US, EU & AU plug types.

Weight: - 95g **Dimensions:** 47x93x108mm

3

XP SERIES POWER PACK (CDX2341-130)

The XP Series power pack is used in conjunction with the Battery Charging Station. Multi-stage charging is shown by the built in LED which indicates the status of the charge cycle.

N.B. – Power Pack comes with a choice of UK, US, EU & AU plug types.

Weight: 265g **Dimensions:** 115x58x52mm

4

XP SERIES REPLACEMENT FUSE KIT (XP-326)

This pack of 10, 1.25A fuses can replace the over current protection device built into the XP Series battery pack. Supplied complete with a fuse replacement tool.

Safety Note – Only remove the battery within a non-hazardous area. Only CorDEX Instruments replacement fuses should be used, failure to do so will void certification.

5

XP SERIES BATTERY FIXING KIT (XP-325)

The stainless steel, high strength fixings can be used to replace those supplied to secure the battery to the instrument body.

Safety Note – Only use CorDEX supplied fixings to secure the battery, failure to do so will void the certification.

(XP-330)

1

XP SERIES USB COMMUNICATIONS WAND (XP-322)

This high speed cable is used to download images and movies from the XP Series digital cameras to a PC or Mac.

Safety Note – Only download images within a non-hazardous area.

Weight: - 23g **Length:** - 60cm

2

XP SERIES HOLSTER (XP-327)

Durable leather holster designed to protect your XP series digital camera, whilst keeping it close at hand.

3

XP SERIES HARD TRANSPORT CASE (XP-328)

This rugged, plastic hard case is watertight and includes custom designed foam supports to hold all items securely. The case can be locked with padlocks (not supplied) and includes a breather valve to prevent pressure build-ups in aircraft holds.

Safety Note – The transport case is not to be used within a hazardous area.

Weight: 1.9kg

Overall Dimensions: 270x246x127mm

4

XP SERIES HARNESS (XP-330)

Durable leather harness designed to secure the XP Series digital cameras to your person whilst enabling image capture, ideal accessory when working at heights.
