

LIGHTING

Power, Longevity and Flexibility at your fingertips with the GENESIS, intrinsically safe lighting solutions from CorDEX. Using the interchangeable, smart battery pack, GENESIS can remain in the hazardous location as long as you require, providing 400 lumens of light for a virtually indefinite period. There is no need to return to the safe area to charge a battery or replace for a new one, with GENESIS Zone 1 Hot Swap technology, you can replace the battery right there, in the hazardous area, as soon as you need to saving you time and money whilst keeping you safe.

ATEX and IECEx certified, GENESIS lighting products are rigorously tested to ensure maximum reliability. The smart EXIS powerpacks have on-board energy level indication, along with a Bluetooth enabled battery diagnostic station providing you with data relating to your battery health, charge state and much more all via a dedicated PC application.

Introducing the new **GENESIS** Intrinsically Safe lighting range.

GENESIS LANTERN

- Intrinsically Safe

GENESIS WORKLIGHT

- Handportable LED Worklight
- Industrial Protection Level IP54
- Powered by interchangeable EXIS™ battery
- Intrinsically Safe

GENESIS FLASHLIGHTS

- Every product in our flashlight range is manufactured from the highest quality aircraft aluminium.
- FL Series flashlights are impact resistant, shockproof and are so durable, you can even use them underwater.

- Not only are these probably the most rugged industrial flashlights on the market today, they are also Intrinsically Safe.
- Incorporating super bright, white light LEDs powered by off-the-shelf batteries, FL Series Flashlights Pack a big punch in a compact package.

LIGHTER. BRIGHTER. SAFER.

DESIGNED AND TESTED TO BE RUGGED.
